

My very dear Friend.

I have just seen Miss Cassel and the poor girl is in the depths of despair because she has been placed upon night work. I feel assured in the kindness of your heart, you will see that she is allowed to continue with her day hours. Her health is beginning to improve, and it will be a great pity to lose all she is gaining. I do have the greatest sympathy for these delicate women who from force of circumstances have to work, sick or well, through storm and

heat, and I feel like helping
them whenever it is possible
You must not deem dull and
gloomy for such is not my
nature, within the last two months
I have had a severe loss, in
the death of a precious friend
who loved me with an affection
seldom met with, and from
constant care I took a severe
cold, which has kept me home
bound for nearly two weeks.
or I would have come down
to see you, instead of sending
you this note, hope it will
not intrude upon your time
or patience, and that you
will give Miss Cassels case

your special attention, I doubt not she will
hand this to you, so you will get all
particulars from her.

Wishing you all a very
happy New Year and hoping to see you soon

I remain very truly yours
